

PIYUSH CHAUHAN

Python Django Developer — Generative AI — REST APIs — React

New Delhi, India — learnerpiyush2001@gmail.com — +91 8920307050 — Portfolio — GitHub — LinkedIn

PROFESSIONAL SUMMARY

IT graduate and Python/Django developer with hands-on experience building full-stack applications using Django REST Framework, React and PostgreSQL. Integrated the OpenAI API into a Django backend to build a conversational AI chatbot, alongside REST APIs with JWT authentication, role-based access control and payment integration across three other projects. Strong foundation in Data Structures & Algorithms, OOP and database design; current CGPA 8.1.

PROFESSIONAL EXPERIENCE

Python Developer Intern — Octanet Services Pvt. Ltd.

- Gained practical exposure to Python development, debugging, Git, and software development workflows through assigned projects and tasks.

Design Solution Engineer — Thermax Limited

- Assisted in technical documentation, resource management, reporting, and day-to-day system operations.
- Gained hands-on exposure to enterprise workflows, cross-functional teamwork and structured execution.

PROJECTS

AI Medical Voice Assistant ([link](#))

Next.js, React (TypeScript), Supabase, Tailwind CSS, OpenAI, Assembly AI

- Patients required real-time voice-based consultations with instant AI generated medical reports, eliminating manual intervention.
- Built a full-stack AI healthcare application integrating real-time voice interactions, LLM-based medical reporting, authentication, and subscription billing.

Digital Commerce & Transaction Platform ([link](#))

Django REST Framework, React, PostgreSQL, JWT, Razorpay

- Designed and built a full-stack e-commerce platform with a Django REST Framework backend and React frontend, implementing product catalog, cart and order-management workflows.
- Implemented JWT-based authentication with role-based access control (RBAC), and modelled relational data in PostgreSQL for products, carts and orders.
- Integrated Razorpay for secure payment processing, handling checkout and order-confirmation flows.

Enterprise Resource Planner- ERP Portal ([link](#))

Django, ReactJs, Django Rest Framework, RBAC, JWT Auth.

- Developed a full-stack Django application for managing employee records, attendance and leave workflows using role-based CRUD operations and relational data modelling.
- Implemented authentication and role-based access to differentiate employee and administrator actions.

TECHNICAL SKILLS

SKILLS: Python, JavaScript, C++, SQL, Django, Django REST Framework, RESTful API Design, JWT Authentication, Role-Based Access Control, PostgreSQL, MVT Architecture, Deployment, MySQL, Git, GitHub, React.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Computer Networks

EDUCATION

Bachelor of Technology in Information Technology

Guru Gobind Singh Indraprastha University, New Delhi, India — CGPA: 8.1

Sept 2023 – May 2026

Diploma in Chemical Engineering

Guru Nanak Dev Institute of Technology, New Delhi, India

Aug 2017 – Jul 2020

CERTIFICATIONS & ACHIEVEMENTS

- Oracle Cloud Infrastructure Foundations Associate — Oracle Cloud
- Participation in Hack with India Hackathon THDC
- Certification in Power Bi by Simplilearn
